TYPE 9205A

Specifications

Reel Size:	Will handle any size reel up to 17 inches in diameter and two inches thick.
Erasure:	50 db below saturation minimum.
Switch:	Heavy-duty, double pole.
Fuses:	Two 15 amp. fuses; one on each coil.
Pilot Lights:	Two; one on each coil.
Finish:	Cinema gray baked enamel.
Power Requirement:	115 VAC, 50-60 Cycle.
Power Consumption:	2000 watts.
Dimensions:	3¾" x 12" x 14".
Net Weight:	31 pounds.
Shipping Weight:	33 pounds.
Net Price:	\$75.40.

Features

- Erases reels up to 17 inches in diameter, two inches thick.
- Locating Spindle.
- Double Fused.
- Dual Pilot Lights.
- Two Prong Plug with Ground Connector.
- Rubber Feet.

The Cinema Type 9205A Degausser is recommended for complete erasure of program and residual noise from magnetic tape and film. Designed for industrial and/or home use. A large active field area is capable of erasing a recorded signal to more than 50 db below saturation. This unit is also useful for Telemetry, Direct Dialing or other magnetic tape systems. It is also ideal for use in machine shops employing magnetic chucks or demagnetizing tools. The 9205A will remove any residual magnetism imparted into the material being worked. The Degausser is manufactured with heavy-duty, double pole switches, double fused with dual pilot lights for individual protection and monitoring of each coil, three conductor cord with two prong plug and ground connector with six foot rubber covered cord. Heavy steel case, complete with rubber feet. This rugged Degausser is built for years of dependable service when used within limits of the accompanying operating instructions.

Replacement Components

12975	Degausser Coil	\$18.75
12297	"On" "Off" Switch	4.85
12651-2	Black Phenolic Top Panel	7.50

TYPE 9205A-220

Identical in construction to the Type 9205A, except the 9205A-220 is designed to operate at 220 VAC, 50-60 Cycle.

Net Weight:	34 pounds.
Shipping Weight:	37 pounds.
Net Price:	\$88.25

Replacement Components

12975	Degausser Coil	\$18.75
12297	"On" "Off" Switch	4.85
12651-6	Black Phenolic Top Panel	24.25

TYPE 64221

Features

- Erase Reels up to 10½ inches in diameter, two inches thick.
- Two Locating Spindles.
- Fused.
- Oral Indicating Vibrating Reed when in Operation.
- Outlined Field Area.

The Cinema 64221 is identical in construction to the 9205A, except it is limited in erasure to 10½ inch diameter, one inch thick reel sizes. This unit is recommended where size and cost are limiting factors.

Specifications

Reel Size:	Will handle any size reel up to 10½ inches in diameter and one inch thick.
Erasure:	50 db below saturation minimum.
Switch:	Heavy duty, single pole.
Fuse:	One 15 amp. line fuse.
Oral Indication:	A vibrating reed when in operation.
Enclosure:	Heavy duty case with brown phenolic top panel.
Finish:	Cinema gray baked enamel.
Power Requirement:	115 VAC, 50-60 Cycle.
Power Consumption:	1000 watts.
Dimensions:	3¾" x 6" x 8".
Net Weight:	15 pounds.
Shipping Weight:	18 pounds.
Net Price:	\$49.95.

Replacement Components

12975	Degausser Coil	\$18.75
800015	"On" "Off" Switch	.70
52378	Brown Phenolic Top	5.40

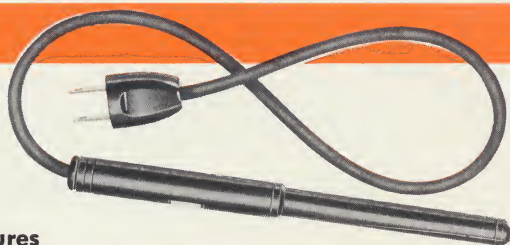

TYPE 64221-220

Identical in construction to the Type 64221, except the 64221-220 is designed to operate at 220 VAC, 50-60 Cycle.

Net Weight:	16 Pounds.
Shipping Weight:	19 Pounds.
Net Price:	\$54.95.

Replacement Components

52781	Degausser Coil	\$18.75
800015	"On" "Off" Switch	.70
52783	Brown Phenolic Top	9.65

Features

- Will Erase Limited Small Areas.
- Small Size.
- Lightweight.
- Easy to Operate.

Description

The Cinema Type Magnetic Erasing Pencil is recommended where erasing of limited small areas of magnetic tape or film is important. In program material, words, complete sentences, and even syllables may be completely erased with ease. This unit has a general appearance of a large fountain pen. It is ideal for operating in a confined area. Year-in, year-out service.

TYPE 8905 MAGNETIC ERASING PENCIL

ance of a large fountain pen. It is ideal for operating in a confined area. Year-in, year-out service.

Specifications

Erasure:	50 db below saturation.
Active Tip Area:	.250" Diameter.
Switch:	Single Pole. Press to operate.
Enclosure:	Heavy Phenolic Case, complete with six foot rubber cord.
Finish:	Black.
Power Requirement:	115 VAC, 50-60 Cycle.
Power Consumption:	10 Watts.
Dimensions:	5/8" Diameter by 8" Long.
Net Weight:	6 ounces.
Shipping Weight:	12 ounces.
Net Price:	\$15.00.
